

In the year 2000 Greek TV/Film Director Manousos Manousakis and his family made a firm decision to revive a unique olive grove situated at the foot of Mount Parnonas, in the historic village of Sellasia, situated near Sparta, Greece, and in Chiliomodi, near Corinth. For the Manousakis family estate, organic sustainable agriculture is the only realistic and necessary alternative to chemical intensive farming. We all know that rampant pesticide use, soil depletion and genetic homogenization of crops threaten the water we drink and the land we and others depend on for food and habitat.

After years of uninterrupted devotion our product reached the top quality we were seeking, That is when we decided to share it with our friends.

We offer a variety of organic products; ranging from a unique, century old, local variety olive oil, to Kalamon Table Olives , Fruit Spreads, Chutneys and Fresh Produce. Sensitive to the health and nutritional high standards of consumers, our olives are hand picked and cold pressed to preserve the beneficial organic substances of olive oil. Our oil is not filtered. Bits of remnants from the pressed olives, that accumulate at the bottom of the containers is proof of this. We can say it is pure, natural, olive juice. Our fruit is hand picked when sweet and fragrant. We oversee our fresh produce from the planting of the seed to the harvest.

All our products are certified by BIO HELLAS.

Early Harvest Extra Virgin *organic* Olive Oil

Each season a selection of olives is harvested in early November just before the olives ripen. This unique mono cultivar organic extra virgin olive oil is extracted from olive trees grown in Laconia, Greece. The olive oil produced is rich and thick with a full buttery taste with tones of spring and aftertaste of early winter. Perfect to be served with fresh cut salads or/and on top of bread with a pinch of oregano and lemon.

Product of Organic Farming

(250ml)

Extra Virgin *organic* Olive Oil

Single-Estate, Single-Variety, Same-Year
Production Gourmet Olive Oil

Honouring the wisdom of centuries old, local tradition, we nurtured the rare local variety of olives “**Koutsourelia**”. In this area this most suitable variety has successfully survived through the centuries, making the most of the beneficial winds that cool the olives the year round and the cold of the winter that invigorates the tree.

Kalamon *organic* Table Olives

In Organic Extra Virgin Olive Oil

Sun ripened and hand picked, one by one.

Kalamata olives are sun ripened and 100% natural. The color of each olive varies from black to purple/brown, depending on their exposure to the sun rays while on the tree, with olives on upper western branches getting the darkest color. Handpicked from organically cultivated trees, these superb olives are ideal for salads, finger-food, sandwiches, or a treat to accompany your drink. Preserved in extra virgin organic olive oil. Off course, you use the oil when the olives have finished.

Variations: Kalamata Table Olives in Extra Virgin Organic Olive Oil, Kalamata Table Olives With Orange and Cumin
